

SAFER GAMING

Top tips for parents and carers

1

Encourage your child to enjoy both online and offline activities.

Remind them to take breaks for a healthy lifestyle.

2

Get your child involved in talking about the PEGI age rating system and how it can shape their gaming choices.

Check out www.pegi.info for games suitable for their age.

3

Create a kind and caring online environment for your child.

Discuss the importance of being respectful to others, both online and offline.

4

Help your child understand the importance of keeping personal information safe and using strong passwords.

Have fun chats about staying safe online and why privacy matters.

5

Keep up with what they're doing while gaming to make sure they're safe online.

Have a chat about in-game items like microtransactions and loot boxes.

6

Encourage them to speak up about anything worrying online and support them in staying safe.

Show your child how to use the reporting features on their games.
