

# Empower

yourself to achieve more with Digital Eagles

Make money work for you

July 2022

RESTRICTED – EXTERNAL: This document is for use only by Barclays employees and their nominated agencies. This document has been optimised for digital and should not be printed where possible.

# Who we are

Our Digital Eagles are passionate about empowering our colleagues, customers and local communities to be more confident with technology and to move forward in the digital world.

We're passionate that everyone has the opportunity to explore technology in an environment that suits them. We want to make sure that nobody experiences digital exclusion. We're helping to bridge society's digital skills gap so that everyone can excel in this rapidly changing world.

We have Digital Eagles across the UK who are ready to help.

## Learn with us

We designed Digital Wings to provide a tailored learning experience to suit anyone wanting to improve their digital know-how.

As a group or on your own, the learning we provide will support someone starting out, right through to learning new skills using technology.

Start your journey through our app or online at [digital.wings.uk.barclays](https://digital.wings.uk.barclays).

# Future skills

At Code Playground, we believe in empowering people through digital literacy. Together, we can make learning to code easier for everyone, including teachers, parents and students.

Join interactive live classes, use free online resources, access detailed lesson plans or book a school visit with one of our Barclays Digital Eagles.

You'll find everything you need to bring coding to life on [barclayscodeplayground.co.uk](https://barclayscodeplayground.co.uk)

# Unlock digital

We've all been relying on digital much more to complete schoolwork, stay in touch with loved ones, work remotely and shop for essentials. But, as brilliant as the digital world is, it can also pose risks.

We work with members of the public and collaborate with private and public sector organisations so everybody has the opportunity to feel safe and confident online.

Learn the skills you need to explore the digital world safely with our free digital upskills sessions.

# Empowering communities

With a nationwide support network of Digital Eagles, we provide education and guidance for healthcare, education and communities close to you.

Our mission is to help you become a force for good in your community or organisation, bringing to life the essential digital skills needed to thrive in the digital world.

Working alongside other [Digital Champions](#), you'll support the UK's digital inclusion initiatives, or your organisation's need to embed a digital first culture.
